

Hello,

I am currently studying at Hyper Island as digital data strategist and looking for an internship.

Hyper Island is a journey in which I learn a mixture of hard and soft skills. Hard skills include solving problems of a real business with a data driven approach. While doing that, I have experienced Google Analytics, MixPanel, A-B testing, site optimisation and data analysis. When it comes to soft skills I have learned that team is everything.

My passion is the whole process of concept creation: Analysing data, finding insights and creating concepts based on those valuable insights. I would like to learn and grow more in a young and energetic team with best mentors.

You can check my portfolio on www.zehraozden.se and my LinkedIn profile on <https://se.linkedin.com/in/ozdenserdarli> . Should you need more information, I will be happy to provide it.

Yours sincerely,

Zehra Özden Serdarli
